

Peter Montenegro joins Collaborative Aggregates LLC (CollAgg) on staff as the national director of marketing.

For the past three construction seasons, Pete is performing market research, product development and promotions for the CollAgg Delta S asphalt rejuvenator and warm mix asphalt chemistry product. Delta S launched in June 2015.

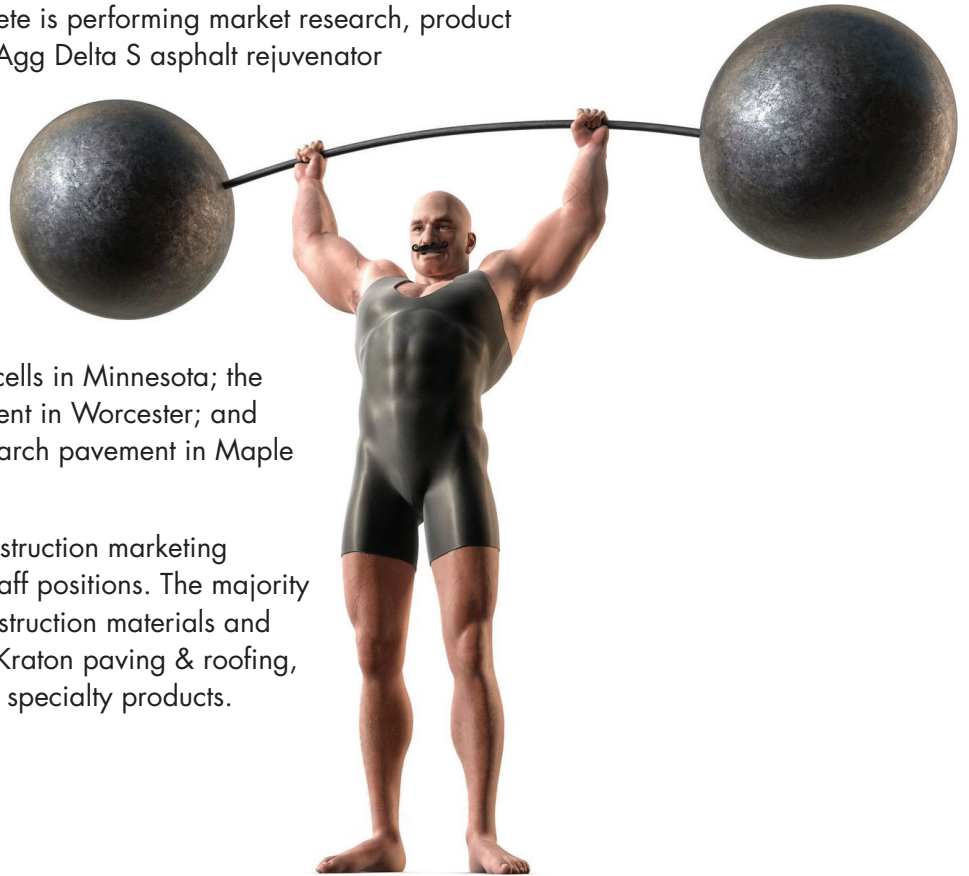

Montenegro reports to James Babcock, CollAgg owner and ceo in his marketing director role.

Pete is managing the Delta S research section at the NCAT at Auburn University test track in Alabama; the MnROAD test cells in Minnesota; the MassDOT District 3 field research pavement in Worcester; and the Hennepin County-MinnDOT field research pavement in Maple Groves among others.

Montenegro's work career is spent in construction marketing support services in both consulting and staff positions. The majority of his experience is in road & bridge construction materials and technologies. National staff jobs include Kraton paving & roofing, BASF construction polymers and Chevron specialty products.
