

Collaborative Aggregates LLC Welcomes Steve Wallace as our New Vice President of Sales

Steve Wallace joins Collaborative Aggregates LLC with a background in the mechanical engineering and infrastructure improvement industry throughout the Ohio Valley and other regions of the U.S. Steve brings more than two decades of experience as a Managing Partner of construction and strategic planning as well as Senior Partner for business development for scaled public and private road building and infrastructure disciplines. Steve reports to James Babcock, owner and CEO of Collaborative Aggregates LLC.

Steve Wallace has spent the most recent decade of his professional career in the asphalt pavement industry developing, marketing and distributing a full range of pavement preservation products. His primary focus is introducing asphalt rejuvenators to state DOT, county, municipal agency managers and technicians plus contractors as part of their pavement network preservation strategies and contracting service offerings.

Steve is developing and implementing a national sales strategy and a sales team for commercial distribution of Delta S, a liquid plant-based asphalt rejuvenator and warm mix asphalt chemistry plus other related commercialized chemical product formulations of the Warner Babcock Institute for Green Chemistry. Steve operates from an office in Cincinnati, Ohio.
